Dears,

I'm applying for the Quality Control Engineer position because I'm motivated by your job posting, which highlights my qualifications and experience. I've been employed for over 5 years. On the other hand, I have enrolled in the Advanced Back End Mobile Track and am certified as an ISTQB Foundation Level, ISTQB Agile Tester, and ISTQB Mobile Tester in the software testing fields that involve technologies.

During my work experience on a variety of projects with differed domains Like [Banking systems – inventory systems, Retails systems – Telecommunication systems, and Health Care systems]
I have a good knowledge of Functional and non-functional Testing, Usability Testing, GUI Testing, and Automation Testing by using Selenium Web driver with Java and Automation Testing by using Selenium in addition to POM (PageObject Model) Maven, TestNG, JUnit, Cucumber, and Git/GitHub.
and Api Testing by postman and rest assured.

Also, I follow the latest industry trends with great interest, I always look to code to the highest standards possible like clean code strategy.

I sincerely appreciate your taking the time to review my application.
Best regards.

Eslam Lotfy
